Re: Letter of Non-Objection (LNO) for dredged material
Portage Bay small boat harbor

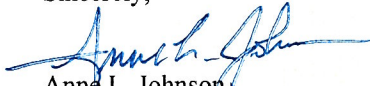

Dear Mr. Floyd:

The Alaska Department of Natural Resources, Division of Mining Land and Water (DMLW) has completed its review of the U.S. Army Corps of Engineers' request to dredge gravel from the old ramp located in Portage Bay at 59.9486 °N, 133.8943 °W, within Section 10, Township 57 South, Range 73 East of the Copper River Meridian. The gravel will be dredged and then side-cast into the inter-tidal zone immediately east of the ramp and the total amount of dredged and side-cast material will not exceed 850 cubic yards.

The LNO is valid for two years from the date of issuance. Please send me a confirmation email when the project is complete. No property right or interest in state land accompanies the LNO. The State assumes no responsibility for risk and liability for any activities associated with the project.

Please call or email me with any questions or concerns.

Sincerely,

Anne L. Johnson
Natural Resources Manager
